

Product Data Sheet

WATER BASED DIGITAL PRIMER

General Information

These Water Based Flexo and Gravure Varnishes offer excellent adhesion of HP Indigo ElectroInks® to most films and papers. These products are suitable for food contact and are especially useful for flexible packaging applications as well as label production. When applied at the recommended coating weight, the optical properties of the substrate are minimally affected and maintain the original aspect of the substrate. These products possess good stability to light and are yellowing resistant.

Key Features

- Excellent ElectroInks® adhesion
- Low VOC content
- Excellent press performance
- Accepted for food packaging

Adhesion Range

Specific substrate adhesion can be obtained to client's substrate specifications.

Safety and Handling

Refer to SDS for safety, handling and waste disposal information.

Clean Up

Anilox rolls and plates can be washed with SL-0014 Cleaner.

Typical Physical Data	
pH	8.5 – 10.0
Viscosity	8–21 Sec #3 Zahn Cup
Weight / US gal. (lb/gal.)	9.00
VOC Content	<5.0%
Anilox Range	400-500 lines
Anilox Range (4CP)	****
