

Product Data Sheet  
**UV METALLIC INK SERIES**

General Information

UV Flexo Metallic Ink System is a one part UV curable metallic ink system designed for paper and some treated film and foil applications in narrow web flexographic printing. This metallic ink system offers maximum brilliance and high performance printing properties, making it possible to print over it with other water based or UV inks.

Key Features

- Low Viscosity
- High Brilliance
- Excellent stability
- Excellent inter-coat adhesion with top lacquers
- Fast cure rate

Color Range

All standard and premium metallic color guide matches, plus custom color matches available.

Clean Up

Anilox rolls and plates can be washed with SL-0014 Cleaner.

Safety and Handling

Refer to SDS for safety, handling and waste disposal information.
